

# Is it POSSIBLE?

Joshua 3—4

Number each word on the notebook page. (the=1, Israelites=2, and so on) until you reach the end of the page. Then fill in the numbered blanks at the bottom with the matching words to find out how God helped the Israelites with their impossible problem!

The Israelites were stopped at the Jordan River. How would they get into the Promised Land? They did not have a power boat. There was no bridge, and there was no zip line! Things seemed impossible! But God was full of love. Surely He was going to help His people with this . . . somehow!
